BACPPA REPORT

Caroline Chisholm Committee

QUT in partnership with BCE support approx 18 psych masters students doing a 2 yr course.

This QUT course is one of three in Australia, the other two course are offered in Melbourne.

All students do an internship at a BCE SCHOOL.

These students are either 5th or 6th year students who work in our schools under the supervision of our GCs. The students provide an add service to our school families.

Few of our GCs are qualified to supervise the students thus only few schools are benefitting from the internship program.

For our GCs to qualify as supervisors their training would cost approx. \$2000. They also have to do 40 supervised hours. Would BCE consider adding this to their scholarship program?

In 2015 QUT will continue to offer the masters in psychologist (Educational & Developmental).
